### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In response to the decision rendered by the Board of Patent Appeals and Interferences reversing the Examiner's rejection dated April 23, 2007, the Examiner allows the claims since the art used in the rejection is the closest prior art of record. The prior art does not suggest a TEEC processing a packet without reassembly. Boucher utilizes reassembling the packet using the data sequencer registers found in the NIC card.
2. Another prior art now made of record is Handel (USPN 7,142,540) which is in the same art of endeavor as the current invention, however fails to disclose the use of elastic buffers to store the data in order to process the data once, the processing occurring without reassembly.
3. For these reasons, in conjunction with the other limitations of the independent claims, puts this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
